

The waste from the Old Mill Boatyard facility is collected and stored in the existing, Department of Environmental Protection approved, 2,000 gallon tight tank. This tank is fitted with alarms that activate in time to ensure waste removal long before the capacity is reached. The town of Chatham has an annual agreement with a licensed waste hauler and septage is transported to the Chatham Water Pollution Control Facility for treatment.

The number of mooring permits indicate that 1,161 vessels reside within the Stage Harbor Complex and 972 are identified as recreational and 189 are commercial vessels. Stage Harbor Complex is primarily a "parking lot" harbor and 90% of the total vessel population is under 25 feet in length, and therefore do not have any type of marine sanitation device. There are a number of locations in the Complex with public launching ramps, however, the size and condition of the ramps and the depth of the water limit use to vessels 25 feet and under. In addition to the vessels that reside in the Complex, there is a transient population estimated at 110 vessels which have marine sanitation devices.

The resources of the Stage Harbor Complex are recreational and commercial. One of the Towns most used public bathing beach is located on Stage Harbor Road at the head of Oyster Pond. The northern tip of the Monomoy National Wildlife Refuge abuts the proposed No Discharge Area and provides recreational opportunities in addition to its wildlife role. The Stage Harbor Complex is also used by both recreational and commercial shell fishermen for the harvest of quahogs, soft-shell clams, mussels, oysters, and bay scallops and is the site of the Town's only commercial aquaculture operations.

Comments and reviews regarding this request for action may be filed on or before January 21, 1997. Such communications, or requests for information or a copy of the applicant's petition, should be addressed to Ann Rodney, U.S. Environmental Protection Agency—New England Region, Strategic Planning Office (CSP), JFK Federal Building, Boston, MA 02203. Telephone: 617-565-4885.

Dated: November 24, 1996.

John P. DeVillars,

Regional Administrator.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Notice of Solicitation for Grant Applications; National Urban Search and Rescue Response System

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: FEMA is soliciting applications for membership in the National Urban Search and Rescue Response System. This solicitation is to add two heavy search and rescue task forces to the 25 urban search and rescue task forces currently sponsored by the Agency. Selectees will be eligible for grant funding from FEMA for urban search and rescue training and equipment required to meet program standards.

DATES: Interested organizations should request an application package from FEMA as soon as possible. Grant applications must be submitted to the appropriate FEMA Regional office before January 14, 1997. Selections will be announced by March 26, 1997. Grant

funds will be awarded before September 30, 1997.

ADDRESSES: Requests for application packages should be addressed to US&R Program Manager, Federal Emergency Management Agency, 500 C Street SW., room 609, Washington, DC 20472, or by facsimile to (202) 646-4684.

FOR FURTHER INFORMATION CONTACT: Mark R. Russo, US&R Program Manager, Emergency Services Branch, Operations and Planning Division, Response and Recovery Directorate, (202) 646-2701.

SUPPLEMENTARY INFORMATION: Notice of Solicitation is hereby given that funding for Urban Search & Rescue (US&R) equipment and training will be available through the Federal Emergency Management Agency (FEMA) in order to augment the existing capabilities of heavy search and rescue teams sponsored by local jurisdictions. The intention is to strengthen local teams with existing capability in search and rescue at the heavy operational level (as defined in National Fire Protection Association Standard 1470) and bring these teams into the FEMA National Urban Search and Rescue Response System. Currently, there are 25 US&R task forces that make up the FEMA National Urban Search & Rescue Response System. Two new task forces will be selected as a result of this solicitation. Each new task force selected will be sponsored by a local jurisdiction, endorsed by a State, and recommended by a national panel of technical experts to FEMA headquarters. Following the initial screening process, FEMA will sponsor on-site visits by technical experts to those teams that the technical review process indicates are highly qualified. Task forces selected to enter the National System will be provided grants in the amount of \$500,000 each during Fiscal Year 1997, for equipment and training necessary to meet program standards. Funds will be provided through amendment of the State's Performance Partnership Agreement with its respective FEMA Region, and then sub-allocated by the State to the sponsoring jurisdiction. Further details on grant procedures will be provided after task force selections have been made. All applications for this program must be submitted to and endorsed by the State emergency management agency of the sponsoring organization.

A technical review panel selected by FEMA and consisting of individuals with expertise and experience in the urban search and rescue field will review and assess, among other items, each local jurisdiction's personnel qualifications and on-hand equipment
